

# BAYSIDE TOY LIBRARY

## COVID-19 POLICY

### PREPARE IN ADVANCE

Please set aside time to clean the toys and allow them to dry before repackaging and returning them to the library.

### HOW TO CLEAN TOYS

Please wash toys with hot soapy water- use a toothbrush or cotton buds for hard-to-reach parts. For toys where this is not suitable, please see our extended list of tips on our website.

### IF SOMEONE IS UNWELL

If someone in the household has been unwell in any way during the loan period, please disinfect the toys. Do not leave toys to soak in disinfectant as they may lose their colour.

### STAY HEALTHY, KEEP US HEALTHY

Please do not visit the toy library if any member of your household have returned from overseas or have been in contact with someone with coronavirus within the past 14 days, even if everyone appears well.

### WE'LL QUARANTINE RETURNS

All returned toys will be quarantined in a separate area of the toy library for 7 days before they are available for loan again. This is to try and ensure that all surfaces are free of COVID-19 in case it may have persisted despite all the above measures.

### GOING THE EXTRA MILE

We ask that you keep a 1.5m distance when visiting the library. We will be practicing recommended hand hygiene procedures at all times. We will be routinely disinfecting all frequently touched surfaces within the toy library.
